

# What does the Top Concerns graph show?

Created by Corey Tutewiler  
Last updated Apr 04, 2016

View the students with the most incidents. This view will display by default for School Administrators and School Masters. District Administrators and District Masters need to select an individual school in the Select school drop-down, at the top of the interface, in order to see the Top Concerns graph.

- + The options in the left panel include Violations, Questionable Content, and Possible Student Situation. Select the square box to the left of an option to remove it from the graph on the main display.
- + The graph will display a list of students in ascending order according to number of incidents.
- + Select the More details drop-down to view additional statistics.
